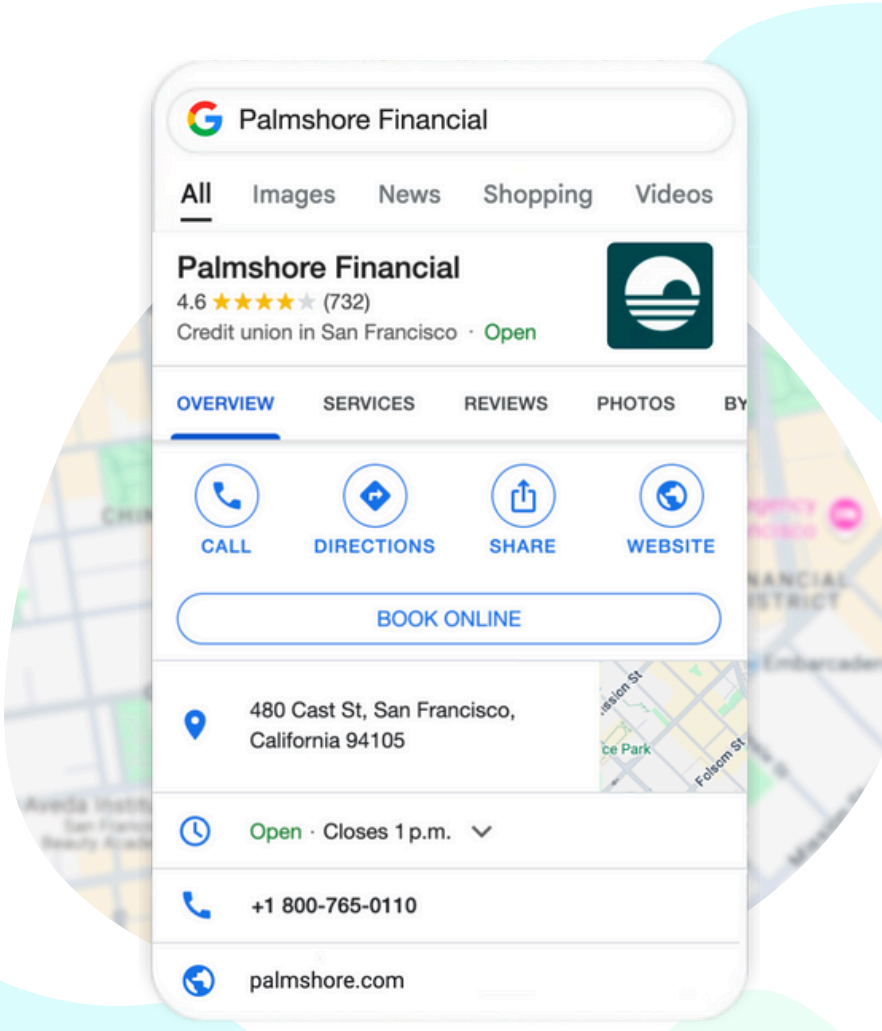
Turn Google Searches into Booked Appointments

Our partnership with Google enables you to drive appointment bookings directly from Google Search or Maps, making it easier than ever for customers to connect with your organization.

Nearly one-third of all mobile searches are location-related, with 55% of searches resulting in a visit within one hour! This highlights the importance of being present where and when people are searching.

Key Advantages of Reserve with Google

- Increase appointment volume
- Simplify scheduling processes
- Enhance customer satisfaction

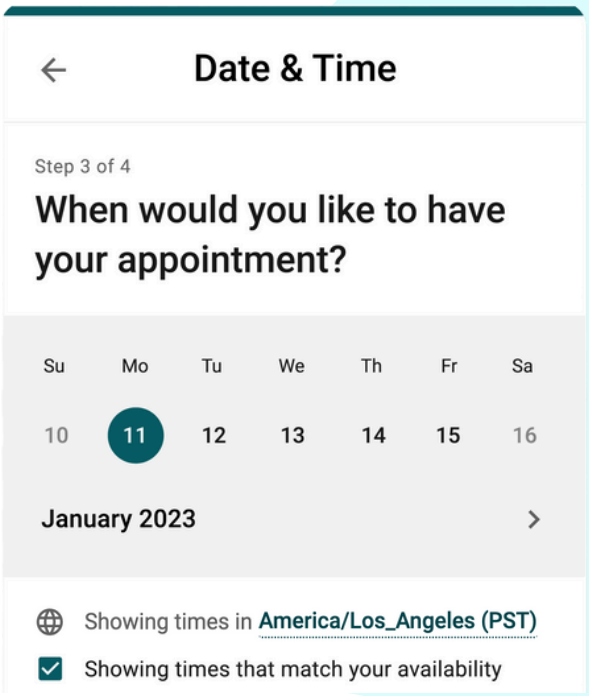


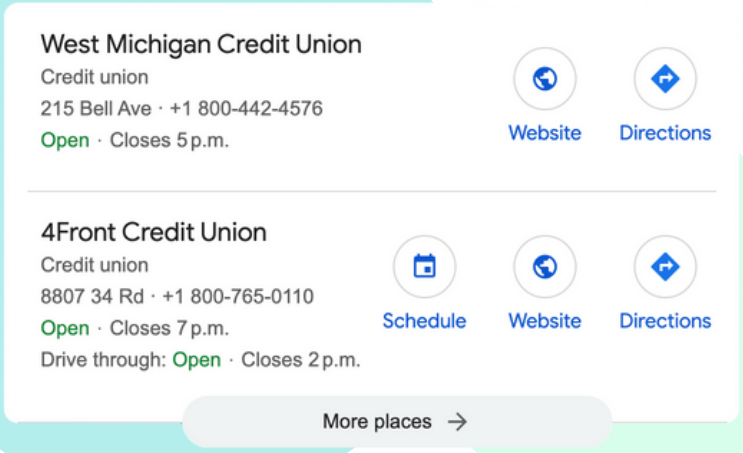
Effortless appointment scheduling awaits.

coconut SOFTWARE

Make Booking Appointments Effortless

- **Convert Interest to Action:** Customers can seamlessly book appointments from Google Search or Maps, increasing appointment booking volumes.
- **Consistent Service Quality:** A streamlined booking process removes friction, helping advisors meet growth targets with more confirmed meetings.





Boost Visibility to Attract Customers

- **Improve Discoverability:** Ensure your institution stands out in search results, capturing customers actively seeking financial services.
- **Attract First-Time Customers:** Reserve with Google captures search traffic from new users, turning casual browsers into long-term customers.
